WELCOME TO BEE SMART SUMMER CAMP!

We are very excited to welcome you to the summer adventures of 2017!

Summer is the perfect time for students to prepare themselves and thus ensure success in the following academic year. Summer is also the perfect time to meet new friends and have fun!

The Bee Smart Summer Camp ensures that its students receive an intricate *balance between learning and fun* with indoor **academic activities** as well as interactive outdoor **sports and games!**

Our summer camp promotes children working in teams with a variety of theme days, such as Cooking Day, Giant Bubble Contest, Pirate Day, Treasure Hunt, and much more...Our experienced and caring staff will ensure that your child's summer will be the best one yet!

PROGRAM DESCRIPTIONS

Math & Science

Mathematics and science can be both fun and challenging.

BEE SMART CAMP offers one-of-a-kind mathematics and science programs since 1996.

- ▶ Tutoring & Enrichment of the mathematics curriculum for all learners.
- ▶ Development of mathematical thinking and problem-solving skills.
(Students enhance their logic and reasoning skills)
- ▶ Preparation to various mathematical competitions in small groups
- ▶ Students learn interesting and interactive scientific experiments.
- ▶ Students participate in exciting field trips and laboratory work.

English Language

Learn English by studying with qualified, native speaking English instructors.

The course includes: Reading Comprehension, Creative Writing, Grammar and Spelling.

Helping students of all ages and levels succeed in their level of study.

ESL Program: International students are welcome!

The ESL program is designed for students of all ages and levels.

The 2010-2014 ESL programs were a huge success with international students from Asia and Europe as well as Canadian students learning to speak, read and write English in small groups. The ESL students did not only succeed in learning English inside the classroom, but they were given the opportunity to apply their English skills outside of the classroom during our many educational field trips!

Students visited the **Distillery Historic District** in downtown Toronto – an internationally acclaimed village of brick-lined streets and dozens of vibrantly restored Victorian Industrial building. Students were able to apply their reading and writing skills during our tour of **Toronto's First Post Office** (or York's fourth post office).

The students visited the reading room, complete with its original fireplace, where students composed and mailed letters using traditional quills and seal their envelope with old-fashioned sealing wax and stamp.

Fashion Design

Bee Smart presents to you unique fashion design for 5-13 years olds.

Fashion Design process allows for the release of held tensions almost as a therapy by art.

Students will learn to design their own jewelry and accessories. Designing clothes is the most interesting and fun process. Students will learn crocheting, jewelry design, T-shirts cut outs. They will have their own sketch book to record interesting facts about fashion, learn some fashion sketch techniques to be able to design more interesting outfits and learn about different types of textures, colors, fabrics, etc...

Baking

Taking a couple of ingredients together seems simple enough, right? Sometimes it is not!

We will be exploring the world of baking more in depths!

Jell-O Creation

Taking a simple ingredient like Jell-O and creating many different things out of it makes you a Jell-O Master! The best Jell-O creator is getting the following awards:

Jell-O Creator

Jell-O Master

Jell-O Queen Bee

Visual Art

All children are artists. The problem is how to remain an artist once one grows up.

[Pablo Picasso](#)

The Bee Smart Learning Centre offers an exciting Visual Arts program in which students learn:

- Visual and Spatial Memory
- Using many different media:
 - Sketching
 - Painting
 - Sculpting

Course Outline

Colour theory: warm & cold colors, achromatic & monochromatic colours,

Primary & Secondary colours, etc.

Pencil drawing: Types of Line; Shape and Forms; Shading and Perspective; Still life; Life drawings.
